

Exploring Positron

Part of "Introduction to Positron" workshop

Posit Software, PBC

You should be here

Your turn

Positron Bingo!

10_m 00_s

- Your "bingo" card has things for you to **find**
 - **Data Explorer** cells: first run `View(mtcars)` in the Console
- Complete 5 in a line and call out "BINGO!"

Your turn

Example Card

A way to see and edit two files side by side	The shortcut to send R code to the Console	Another way to open the Command Palette	A way to open a specific file by its name	Data Explorer: the number of cars where cyl is 4
A terminal, i.e. "a shell"	The shortcut to insert "<-"	The button that opens your console history	The button that saves a plot	A way to open a new Positron window
How to change the IDE theme	The "Find and Replace" dialog box	FREE	An RStudio pane that isn't in Positron	How to change the IDE zoom level
Where Git information and actions live	The setting that enables RStudio shortcuts	The button to restart the R Console	A way to open a new R script file	A prompt to "Open a folder"
The version of R running in the Console	The current working directory of the Console	A way to start another Console	The version of Positron you're running	The shortcut for "Help: Show help at cursor"

What's the same?

Primary side bar

Editor

Activity bar

Secondary side bar

The screenshot shows the Positron RStudio IDE interface. The top bar displays the file name 'hello.qmd' and the project name 'positron-workshop'. The left sidebar (Primary side bar) contains the 'EXPLORER' view, showing a list of files and folders. The bottom-left corner features the 'Activity bar' with icons for switching between views. The main workspace (Editor) is divided into two panes: the top pane shows the 'hello.qmd' file with R code, and the bottom pane shows the 'CONSOLE' view with the output of the R code. The right sidebar (Secondary side bar) contains the 'SESSION' view, showing the 'R 4.4.2' session, and the 'VARIABLES' view, displaying a table of data. The bottom-right corner features a 'Panel' showing a scatter plot titled 'Flipper and bill length'.

DATA

> adelia_penguins	[152 rows x 8 columns]	<tbl_df>
> heavy_penguins	[61 rows x 5 columns]	<tbl_df>
> penguin_stats	[3 rows x 4 columns]	<tbl_df>
> species	"Adelie" "Chinstrap" "Gentoo"	fct(3) [3]
> avg_bill_length	38.79139072847682 48.8338...	dbl [3]
> avg_flipper_length	189.95364238410596 195.82...	dbl [3]
> count	152 68 124	int [3]

PLOTS

Flipper and bill length
Dimensions for penguins at Palmer Station LTER

Bill length (mm)

Flipper length (mm)

Penguin species

- Adelie
- Chinstrap
- Gentoo

CONSOLE

```
> adelia_penguins <- penguins |>
+   filter(species == "Adelie")
+
+ penguin_stats <- penguins |>
+   group_by(species) |>
+   summarize(
+     avg_bill_length = mean(bill_length_mm, na.rm = TRUE),
+     avg_flipper_length = mean(flipper_length_mm, na.rm = TRUE),
+     count = n()
+   )
+
+ heavy_penguins <- penguins |>
+   filter(body_mass_g > 5000) |>
+   select(species, island, sex, body_mass_g, flipper_length_mm)
+
+ 
```

Panel

Use your RStudio muscle memory

- New R File*: Cmd/Ctrl + Shift + N
- Send Code to Console: Cmd/Ctrl + Enter
- Get Help at Cursor: F1
- Find: Cmd/Ctrl + F
- Find in Files: Cmd/Ctrl + Shift + F
- Restart R: Cmd/Ctrl + Shift + 0
- Navigate Console History: Cmd/Ctrl + ↑
- Completion: Tab

*Enable Setting: RStudio Keybindings

What's different?

Less menus, more right-click

Editor

(File) Explorer

Less clicks, more command palette

Almost everything in a menu or button has a command

Menu: **File > New File > R File**

Command: **R: New R File**

Any command can be given a shortcut
