

Exploring Positron

Part of "Introduction to Positron" workshop

Posit Software, PBC

You should be here

Your turn

Positron Bingo!

10_m 00_s

- Your "bingo" card has things for you to **find**
 - **Data Explorer** cells: first run `View(mtcars)` in the Console
- Complete 5 in a line and call out "BINGO!"

Your turn

Example Card

A way to see and edit two files side by side	The shortcut to send R code to the Console	Another way to open the Command Palette	A way to open a specific file by its name	Data Explorer: the number of cars where cyl is 4
A terminal, i.e. "a shell"	The shortcut to insert "<--"	The button that opens your console history	The button that saves a plot	A way to open a new Positron window
How to change the IDE theme	The "Find and Replace" dialog box	FREE	An RStudio pane that isn't in Positron	How to change the IDE zoom level
Where Git information and actions live	The setting that enables RStudio shortcuts	The button to restart the R Console	A way to open a new R script file	A prompt to "Open a folder"
The version of R running in the Console	The current working directory of the Console	A way to start another Console	The version of Positron you're running	The shortcut for "Help: Show help at cursor"

What's the same?

```
43  
44 # Visualizing sales by product category  
45 ggplot(  
46   sales_data,  
47   aes(x = product_category, y = amount, fill = product_category)  
48 ) +  
49   geom_boxplot(alpha = 0.7) +  
50   geom_jitter(width = 0.2, alpha = 0.4) +  
51   labs(  
52     title = "Sales Amount Distribution by Product Category",  
53     subtitle = "January - December 2023",  
54     x = "Product Category",  
55     y = "Sales Amount ($)"  
56 ) +  
57   theme_minimal() +  
58   scale_fill_brewer(palette = "Set1") +  
59   scale_y_continuous(labels = scales::dollar_format())  
60
```
