

Quarto + Positron

Part of the "Getting Started with Positron" workshop

Posit Software, PBC

Positron is Quarto-ready out-of-the-box

- Bundles Quarto CLI (or uses Quarto it finds on your path)
- Bundles Quarto VS Code Extension

Demo

Basic Workflow

- Open `hello.qmd`
- Preview button (aka Render button in RStudio)
 - Quarto commands are run in Terminal pane
 - Preview opens in Viewer pane
- Command: **Quarto: Preview format...**

Preview button

hello.qmd — positron-workshop-project

Hello, Quarto

Meet Quarto

Quarto enables you to weave together content and executable code into a finished document. To learn more about Quarto see <https://quarto.org>.

Meet the penguins

The

[palmerpenguins](#) package contains size measurements for 344 penguins from three species observed on three islands in the Palmer Archipelago, Antarctica.

The plot below shows the relationship between flipper and bill

Demo

Document Workflow

- Code cells
 - Run Selection: `cmd/ctrl+enter`
 - Run Cell: `shift+cmd/ctrl+enter`
 - Command Palette: **Quarto: Run ...**
- Navigation: Breadcrumbs, Outline pane, Command palette: **Go to Symbol in Editor**
- Visual mode
 - Insert Anything: `/`

Code Cells

Commands:
Quarto: Run ...

Navigation

Command:
Go to Symbol in Editor

Visual Mode

Your turn

Authoring

5_m 00_s

- Figure out how to:
 - Create a new Quarto document
 - Insert a code cell
- Then, practice anything else you've seen

New > New File...

Quarto Document

Command:
Quarto: New Document

Command:
Quarto: Insert Code Cell

What's different?

- No inline preview of code output (aka **Chunk Output Inline** in RStudio)
- No push button publishing except to Posit Connect via Posit Publisher extension
- RMarkdown (.Rmd) files preview via Quarto.
Command palette: **R: Render with Document RMarkdown**

Updating Quarto

- Strategy 1: Rely entirely on Positron's bundled Quarto
 - Get updates as Positron is updated (⚙ Setting: Update: Auto Update)
 - Currently, no easy way to use this version outside of Positron
- Strategy 2: Manage Quarto outside of Positron
 - Update manually from quarto.org
 - Positron will prefer the manually installed version, even if it is older
- You can specify a specific Quarto with ⚙ Setting: Quarto: Path

Demo

Git Pane

- Changes Pane
 - **Open Changes** closest to RStudio's diff
 - Changes open in Editor
 - Add, Commit
- Graph Pane
 - Pull/Push
 - Like RStudio's History view
- Current Branch
 - Click to get branch actions
